

The main goal of this manual is to help authors easily prepare for the **recording of the presentation** for the first online Mini symposium.

It is very important that you properly **prepare and test all equipment** in order to easily record the presentation.

Please **read** the following manual **carefully** and use the advice provided.

April 2021.
Beograd, Srbija

1. Presentation specifications

In order to easily access the presentation during the Mini symposium, the following is required:

- the presentation should be made in **Microsoft Office PowerPoint**
- the format of the slides should be **16:9**
- additionally provide a **PDF version** of the presentation

2. Improve the function of your device

- Make sure to **close** all unnecessary applications.
- **Only** the program for recording presentations, as well as the presentation should remain open.
- Especially make sure to close all streaming services, cancel downloading Internet files, cloud sharing, etc.

3. Find a quiet place

The committee will listen carefully to your presentations, i.e. **every sound** you make will be heard.

- **Remove** everything that could distract you, including the sound of mobile phones, e-mails or other notifications on your device.
- Ask **family members** or **roommates** not to distract you during the presentation.
- We recommend that you use **headphones** in order to improve the sound quality, as well as to decrease all outer noise.

4. Test the lighting and ambient

Prior to recording, make sure to test whether the lighting is good and whether you can be seen clearly on the video:

- It is recommended that you have a source of natural light facing you.
- **Avoid** placing the light source (natural or artificial) behind you!
- It is highly recommended to have a **white** background behind you and make sure to reduce any movement behind you (cars, people...).

5. Practice

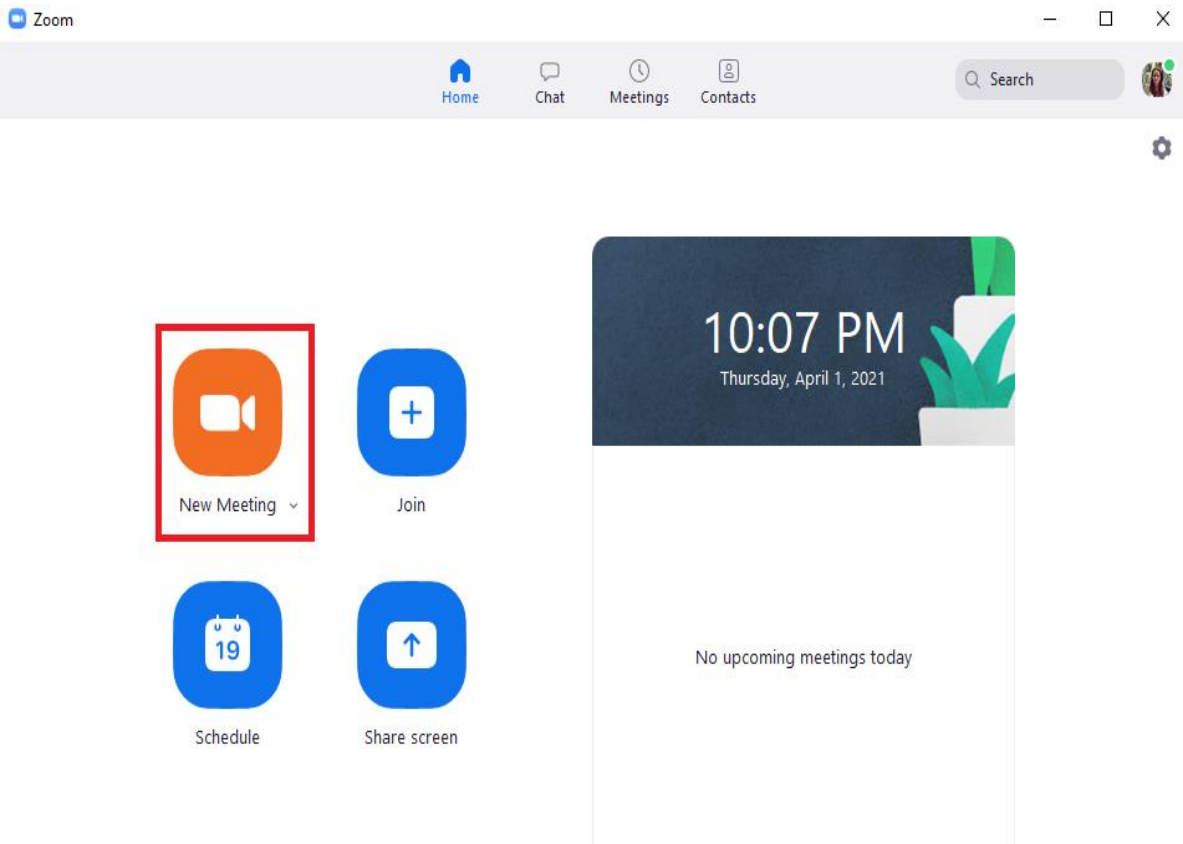

We recommend that you practice presenting a few times prior to recording.

- Avoid reading from the presentation.
- The optimal frame should always show your **face and shoulders**.
- Avoid sudden moves and touching the camera.

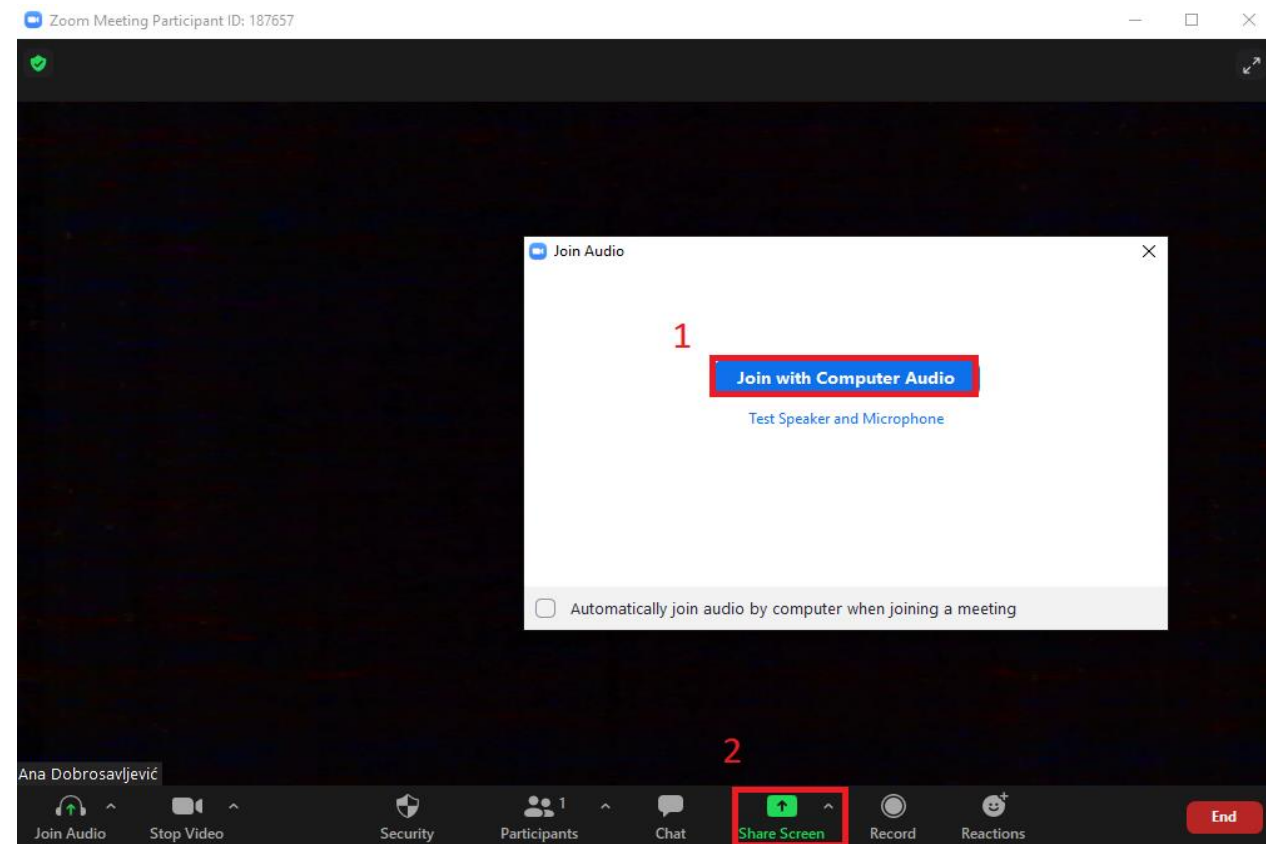

6. How to record yourself in the Zoom app

1. Open the **presentation**, then install **Zoom** and choose the option **New Meeting**.

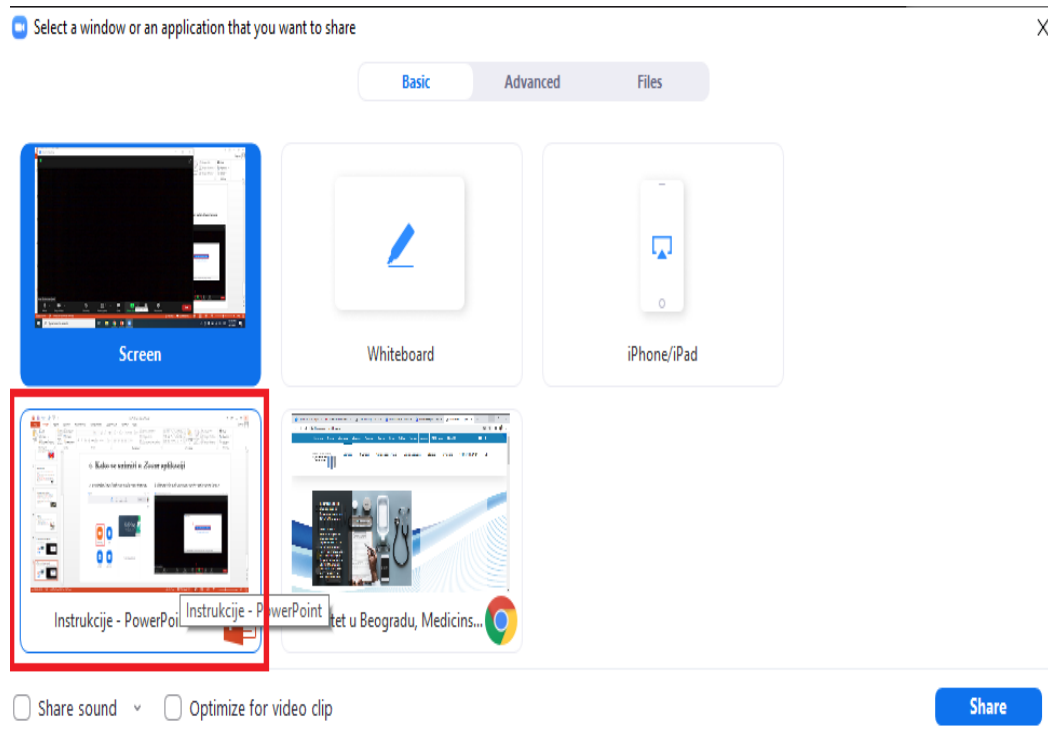

2. Click **Join with Computer Audio** and then click on **Share Screen**.

6. How to record yourself in the Zoom app

3. Choose the **window** with the open presentation.

4. **Zoom in** on the slides, then click on **More** and then **Record**.

Ovaj vodič ima cilj da pomogne autorima da se što lakše pripreme za **snimanje prezentacije** za prvi onlajn Mini simpozijum.

Veoma je važno da adekvatno **pripremite i testirate opremu** kako biste sa lakoćom snimili prezentaciju.

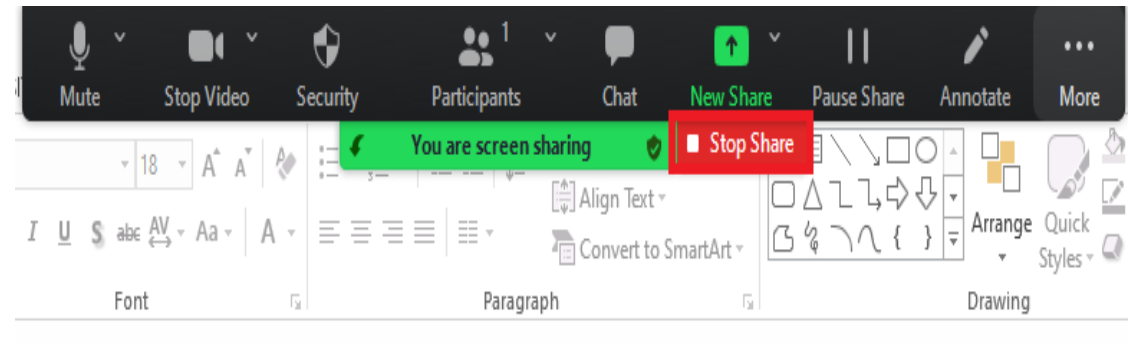

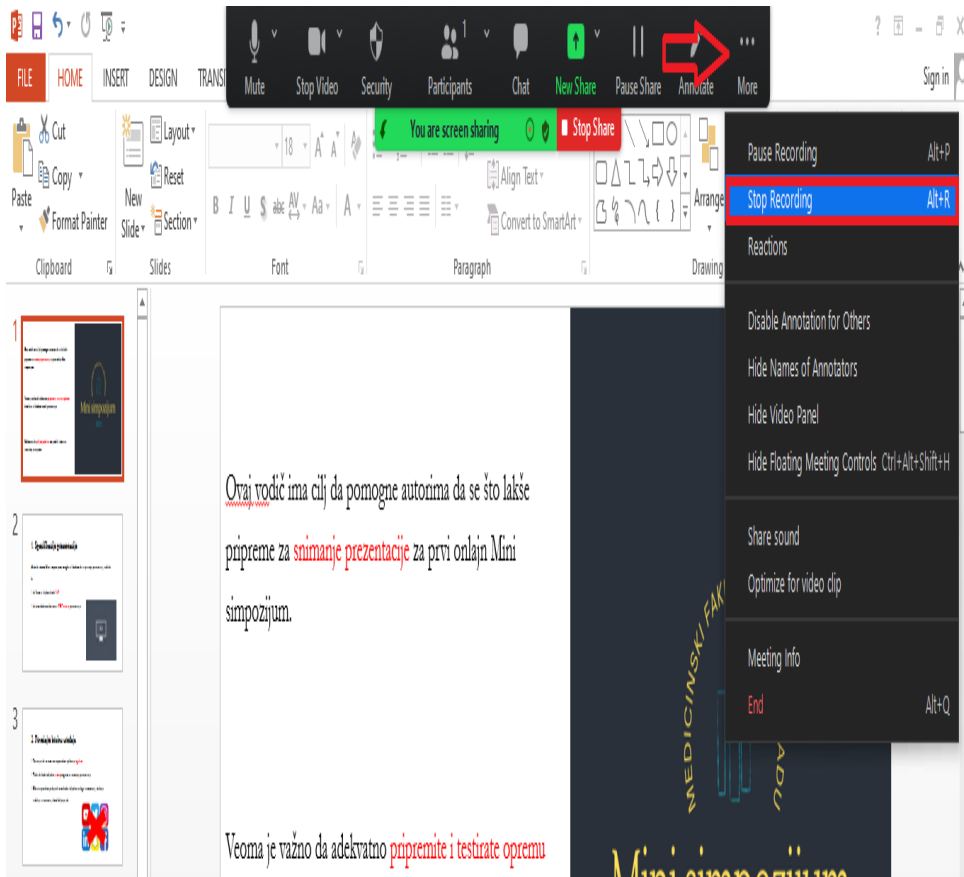

Molimo vas da **pažljivo pročitate** ovaj vodič i iskoristite savete koji su u njemu.

6. How to record yourself in the Zoom app

5. When you're finished, press **More** and **Stop Recording**.

6. Click on the option **Stop Share**.

6. Kako se snimiti u Zoom aplikaciji

6. How to record yourself in the Zoom app

7. Go back to Zoom app and click on the option **End**.

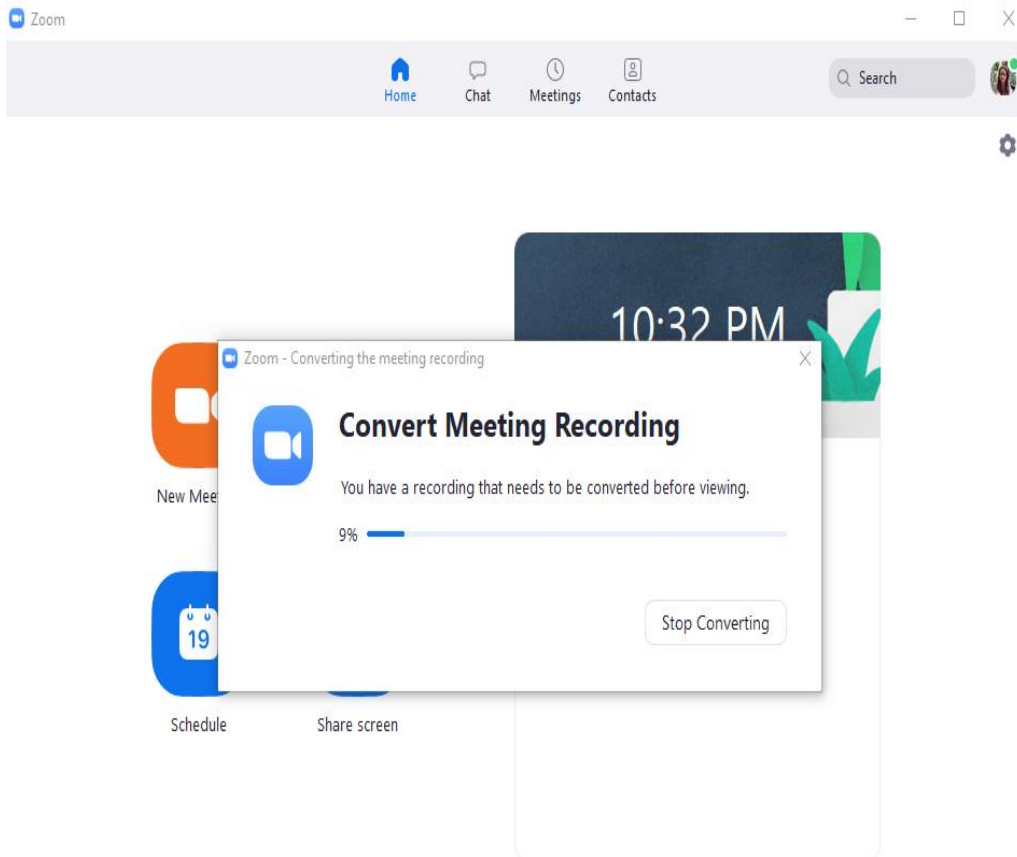

8. Click on the option **End Meeting for All**.

6. How to record yourself in the Zoom app

9. The video will be automatically saved after this.

10. A folder containing the saved video should appear.

*Save the folder/video in a place where you can easily locate it later (i.e. Desktop)

7. Recording

- Making a free recording is also possible in other **programs** (PowerPoint 2019...).
- It is only important that the recording fulfills the **requirements** of the Mini symposium.
- Make sure to remain focused and present in a professional manner, as you normally would if the session were to be held live.

REC ●

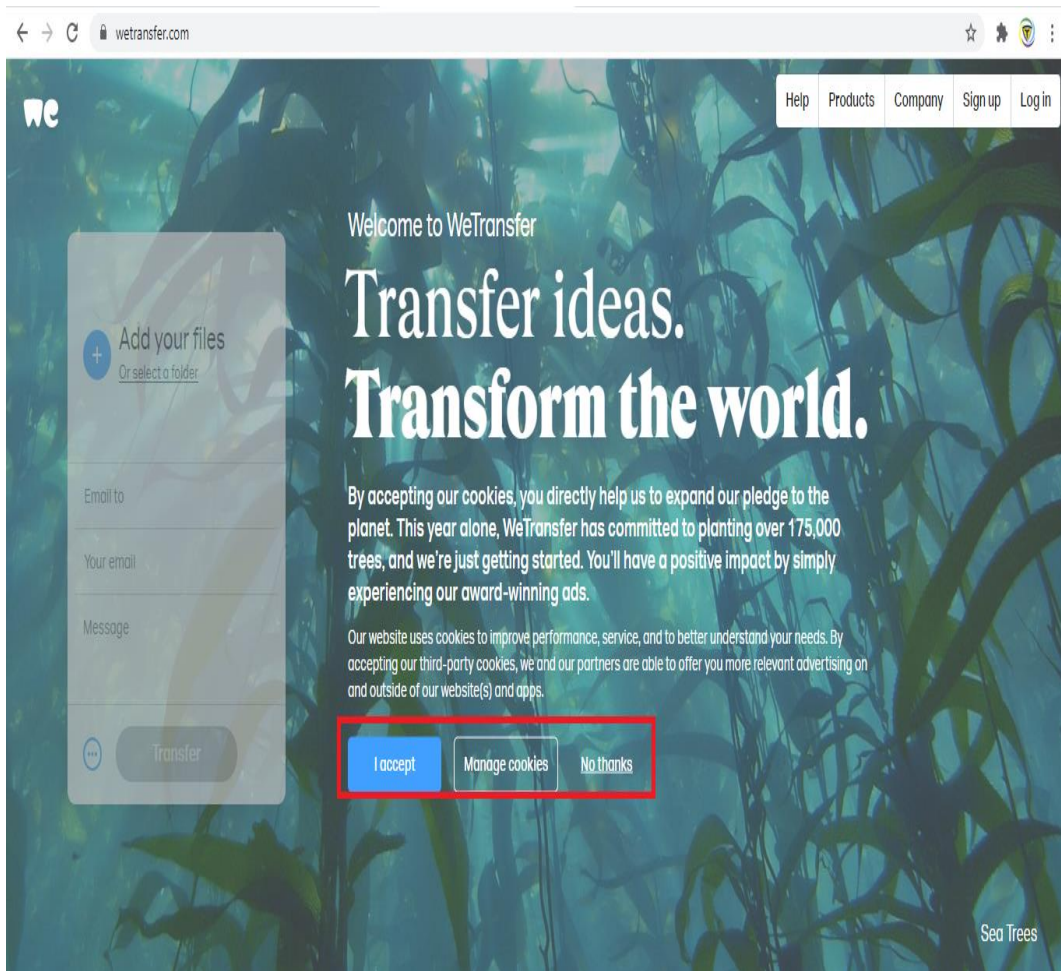

8. After recording

- Check if the recording lasts up to **5 minutes**.
- Make sure everything is visible and audible. Cut out the excess parts, if there are any.
- Save the video in a **.mp4** format.
- Load the video of your presentation on **WeTransfer** and send the link via e-mail to the person responsible for your session. You can send the PDF version of your presentation directly through e-mail.

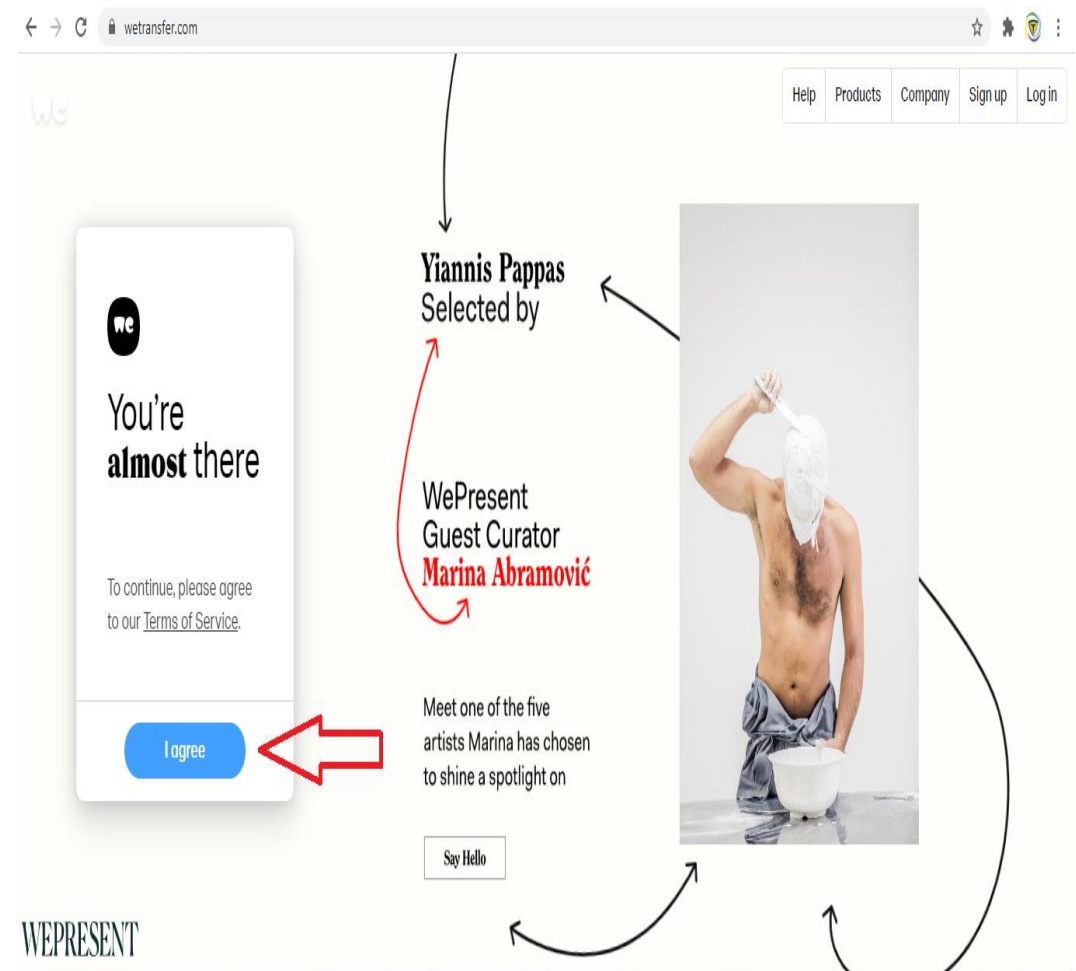

VIDEOS LONGER THAN 5 MINUTES WILL NOT BE ACCEPTED.

9. How to load videos on *WeTransfer*

1. On your Internet browser, type **wetransfer.com** and decide on one of the options concerning cookies.

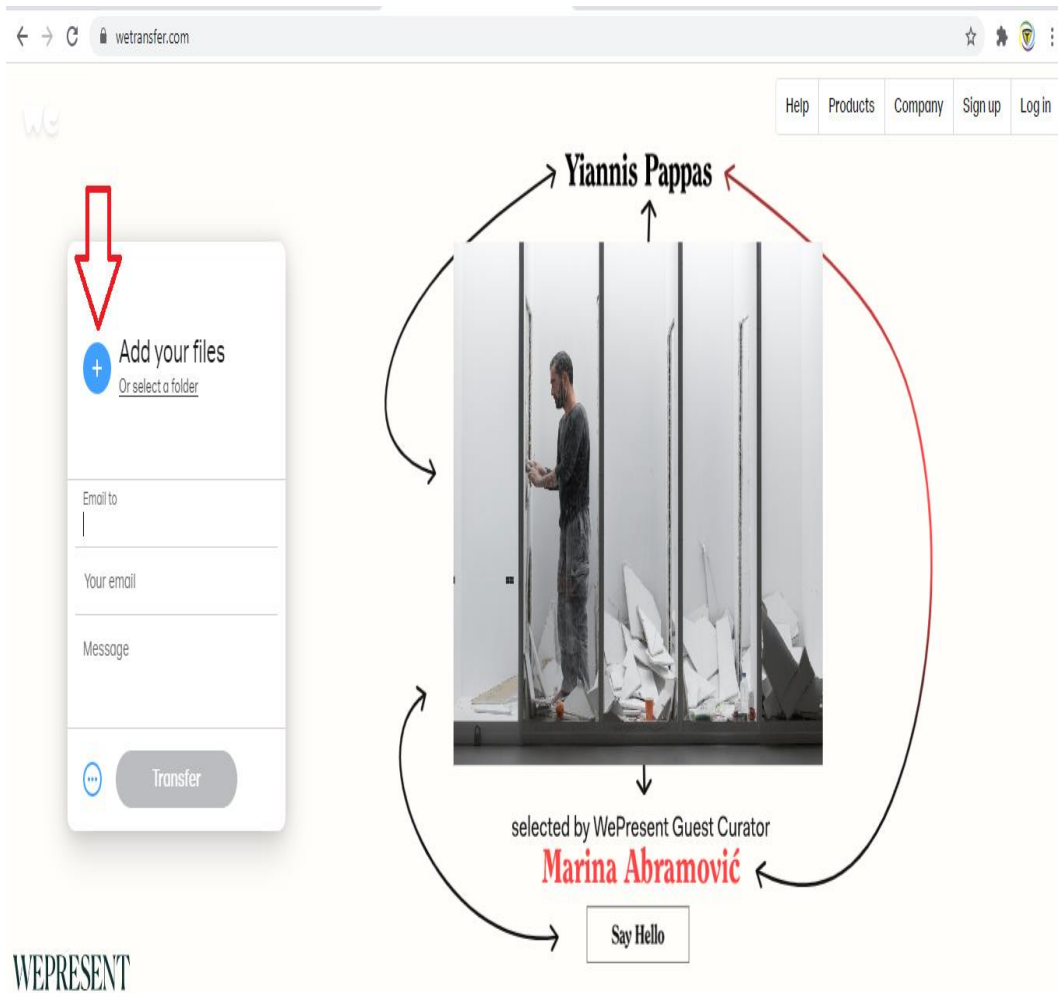

2. Press the option **I agree**.

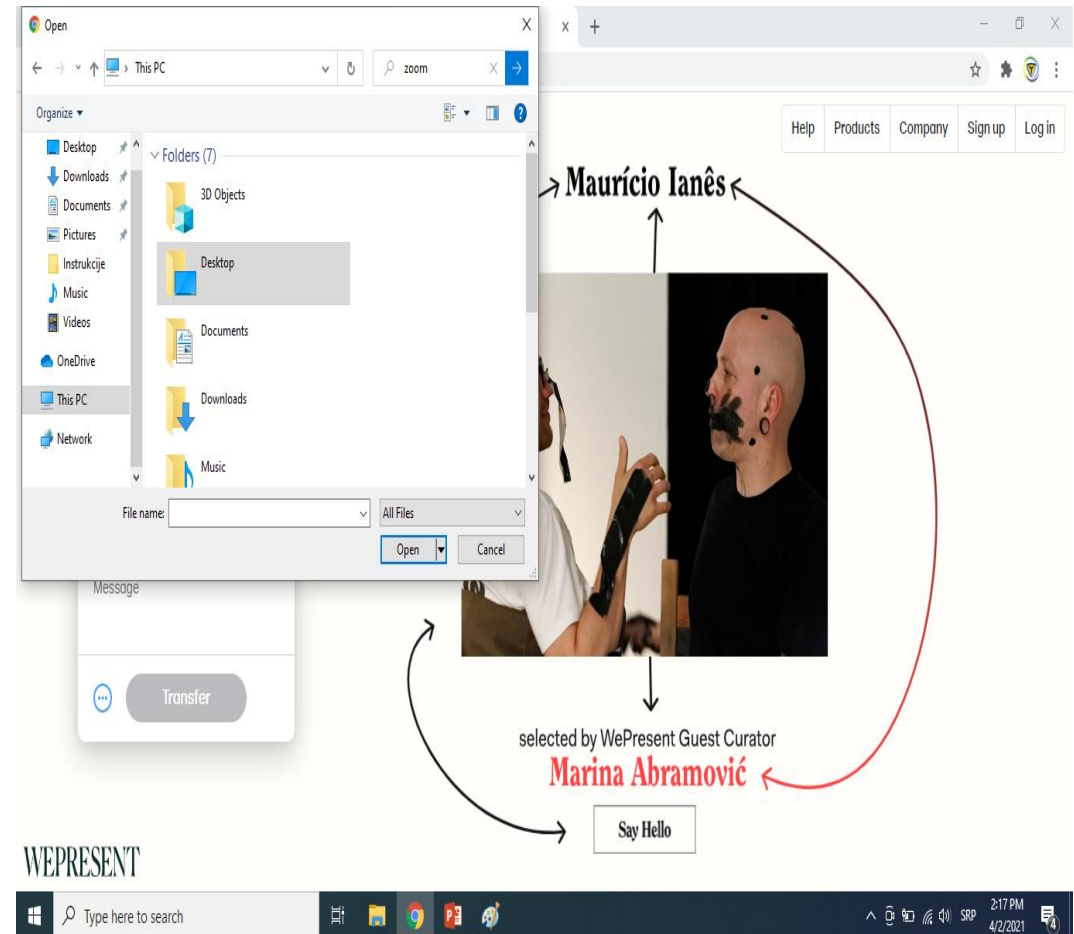

9. How to load videos on *WeTransfer*

3. Click on the plus in order to add a video.

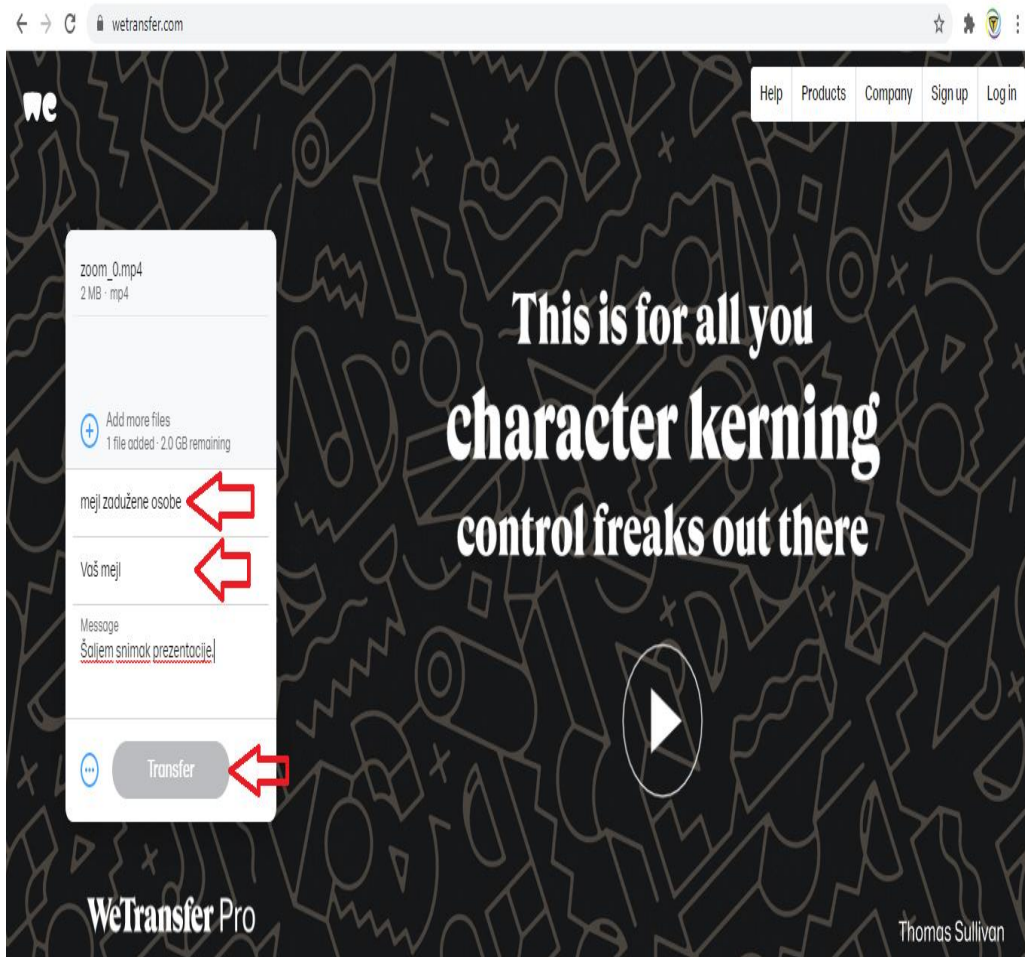

4. Choose a video.

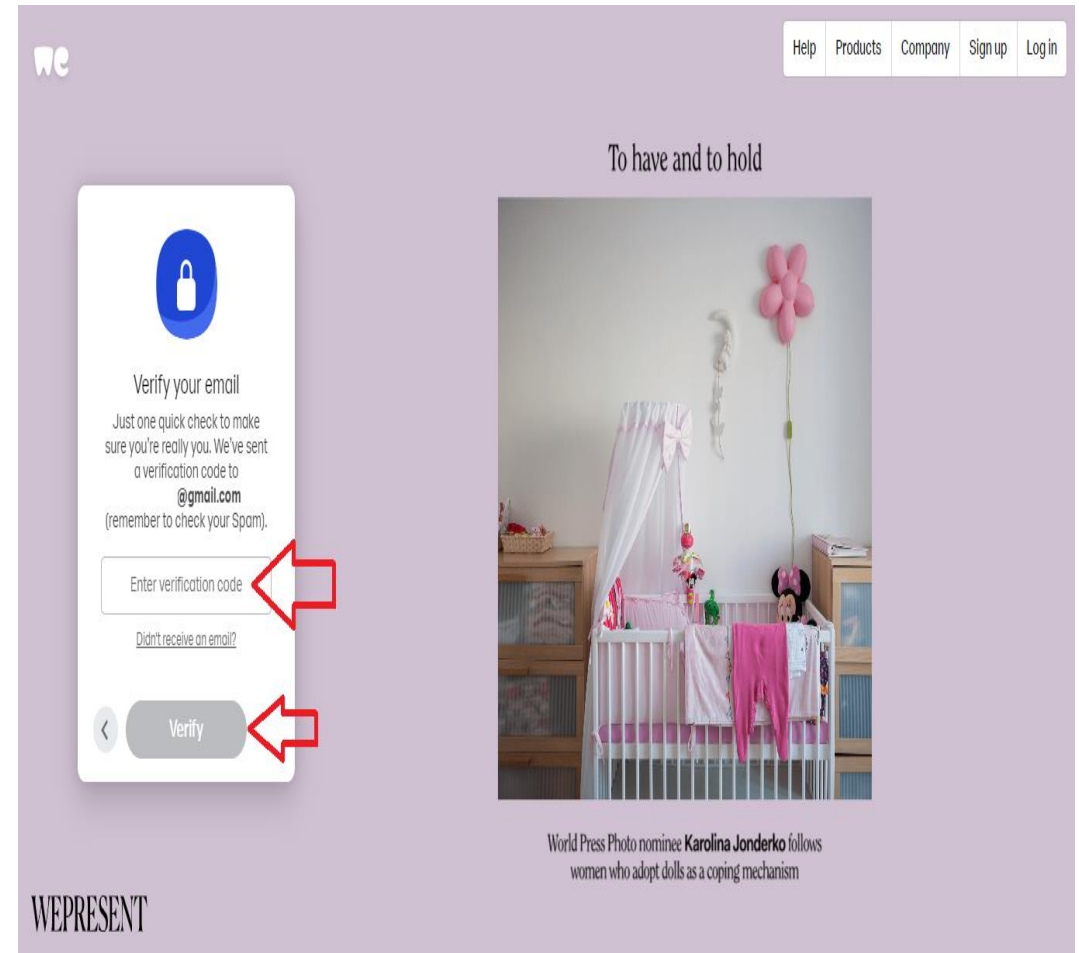

9. How to load videos on *WeTransfer*

5. Fill in other necessary information and press **Transfer**.

6. You will receive a code via e-mail, that you will then enter in the blank field, then press **Verify**. Video will then be loaded and sent.

Thank you for
the attention!
