

Dear fellow students,

We invite you to participate in a scientific study aimed at gaining a deeper understanding of the academic mobility experiences of international students in medicine and related disciplines.

If you are an international student, please take a moment to complete the survey.

Foreign/international students are all students **who do not hold citizenship of the Republic of Serbia**, as well as students who have **dual citizenship of Serbia and other countries**, including those in the **Western Balkan Region and the former Yugoslav Republics**, but **who were not born in Serbia**. Also, the condition for participation in the research is that they have been studying in Serbia for at least one year.

The questionnaire is available at the following link:

<https://www.idn.org.rs/limesurvey/index.php/221183?lang=sr-Latn>

The survey is anonymous, and the results obtained will be used exclusively for scientific purposes.

We would appreciate your feedback and welcome your opinion very much!

Thanks in advance for your time!

Sincerely,

Research team:

Institute of Social Sciences, Belgrade

University Clinical Centre of Serbia, Faculty of Medicine - University of Belgrade

Faculty of Medical Sciences, University of Kragujevac
