MEDICAL FACULTY UNIVERSITY OF BELGRADE
MEDICAL PATHOPHYSIOLOGY
ACADEMIC 2025/2026.
OCTOBER II EXAM TERM - PRACTICAL EXAM SCHEDULE
Date of the exam: 19.10.2026.

About the practical exam:

Students must bring white lab coats to the practical exam.
Students are required to bring their index with a photograph and the white exam application ("bela prijava") to the exam.
Please come 5 to 10 minutes earlier for the roll call and respect the time slot and location you were assigned for the practical.

The practical exam is oral, compulsory, and eliminatory. The student draws two questions (general and special, systems pathophysiology) and is questioned by the examiner in English.

Use of any kind of electronic devices (phones, smart watches/arm bands, eyewear, ear buds, electronic pens, etc.) is strictly forbidden once you enter the space where the exam is held, and all students are strongly encouraged not to bring them to the exam. You will be asked to shut down and/or hand in all of your electronic devices in case you do bring them, and you can only take them back once you are finished with the exam. If any electronic device is found with a student during the exam, regardless of whether he/she is using it or not, the student will be removed from the exam and disciplinary action will be taken against him/her.
Once you are given the questions for the practical exam and/or the final test, you need to be silent and stop talking with other students throughout the exam duration. Disregarding this rule will be considered a violation of the course of the exam, and you will be removed from it.

If your index number is not on the schedule below please contact svetolik.spasic@med.bg.ac.rs
