

| WEEK                                  | DATE        | CLASSES AND ENTRANCE EXAM | EXAMS                             |
|---------------------------------------|-------------|---------------------------|-----------------------------------|
| 1                                     | 16.-20.6.   | Winter semester           |                                   |
| 2                                     | 23.-27.6    |                           |                                   |
| 3                                     | 30.6.-4.7.  | Summer semester           |                                   |
| 4                                     | 7.-11.7.    |                           | January term (7.-11.7.)           |
| 5                                     | 14.-18.7.   |                           |                                   |
| 6                                     | 21.-25.7.   |                           | February term (21.-25.7.)         |
| 7                                     | 28.7.-1.8.  | Entrance exam             |                                   |
| 8                                     | 4.-8.8.     |                           | March term (4.-8.8.) <sup>1</sup> |
| 9                                     | 11.-15.8.   |                           |                                   |
| 10                                    | 18.-22.8.   |                           | April term(18.-22.8.)             |
| 11                                    | 25.-29.8.   |                           |                                   |
| 12                                    | 1.-5.9.     | End of classes 5.9.2025.  | May term (1.-5.9.) <sup>1</sup>   |
| 13                                    | 8.-12.9.    |                           |                                   |
| 14                                    | 15.-19.9.   |                           | June term (15.-19.9.)             |
| 15                                    | 22.-26.9.   |                           |                                   |
| 16                                    | 29.9.-3.10. |                           | July term (29.9.-3.10.)           |
| 17                                    | 6.-10.10.   |                           |                                   |
| 18                                    | 13.-17.10.  |                           | September term (13.-17.10.)       |
| 19                                    | 20.-24.10.  |                           |                                   |
| 20                                    | 27.-31.10.  |                           | October term (27.-31.10.)         |
| End of academic year 31.10.2025.      |             |                           |                                   |
| Beginning of academic year 3.11.2025. |             |                           |                                   |

<sup>1</sup> term for graduate students (March and May)

Lectures will be prerecorded and available at the Online Platform. Labs and seminars will be held as usual. The number of hours of practical classes in the summer semester will be in accordance with the accreditation. In order to maintain the total pool of practical lessons during 10 weeks, it is necessary to increase the number of classes per term by 50% (for example, a 2-classes practice session would be held as 3 classes).

Extension of the school year until 31.10.2025
